### **Expertise**

Dr. Alrabiah is occupying the position of Minister of Commerce and Industry since December 2011. Earlier he worked as Director General of the Saudi Industrial Property Authority (MODON) from April, 2007 to December 2011. At MODON, a lot of achievements have been realized through him, namely: launching of new industrial cities development, expansion of some existing cities and re-establishing of some cities. These developments and expansions resulted in 80% rate of growth in the industrial area, in comparison with what had been developed for the last 40 year.

In addition, he led the privatization of water services, central cooling services and residential

accommodations.

Furthermore, led the development of telecommunications and adopted the idea of building smart cities, within the industrial cities, by providing high-speed communications' networks with smart services, as well as improved public services, commercial and governmental services in the industrial cities. MODON achieved a qualitative improvement in the services provided and in the amount of industrial lands allocation.

Dr. Alrabiah contributed in the establishment and development of a group of manufacturing companies and businesses in the Kingdom. Previously during his tenure as Director General of the Information and Communications Technology sector, at the Saudi Arabian General Investment Authority (SAGIA). He played a distinguished role in attracting huge international investments in this field.

He also worked on the development of the national IT plan, and co-authored the Saudi National IT Plan vision document, which formed

the basis for developing the Saudi National IT plan. He is a board member of several distinguished organizations, such as, The Royal Commission for Jubail and Yanbu, Saudi Arabian General Investment Authority (SAGIA), Saudi Railways Organization, Human Resources Development Fund, Saudi Industrial Development Fund, Gulf Organization for Industrial Consulting (GOIC), Badir Information and Communication Technology, Saudi National IT Plan Council, Saudi Computer Society, member of board of a faculty at King Saud University, and a teaching fellow, at the University of Pittsburgh in Pennsylvania.
