Entrepreneurs Organization (EO)

Display Order: 68

An experienced pilot with over twenty years of experience working with large corporate companies globally, recently working with MD (McDonnell Douglas) Helicopters, Aeronet MRO Software, Aimm Airport Software and Entrepreneurs Organization (EO). He has worked with, and understands, the diverse cultures of over twenty-nine countries. He has facilitated numerous strategic summits, working with owners and entrepreneurs to build measurable and accountable business plans. He has facilitated and lead members through a new strategy for the Aviation Industry Association in New Zealand and spoke at the APEN meeting in Indonesia regarding the economic impact of airports globally. He serves as a director on nine aviation trusts which give back to the aviation industry.
